Main Street
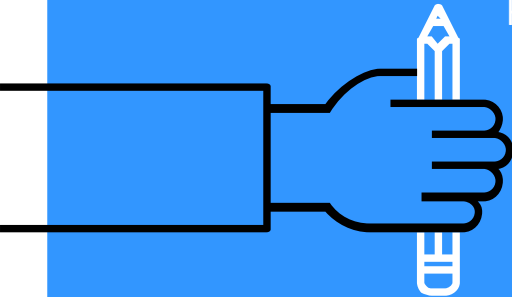

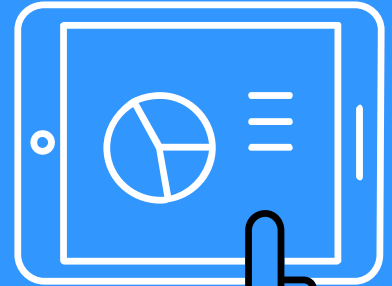

## Group 9
Kyla Barry, Julie Cheon, Daniel Claro, Johnny Wong

The Goal

▷ Create an interactive way for students of any campus to meet others
▷ Find hobbies and interest that are shared among peers
▷ MAKE FRIENDS

Project Outline

Project Attributes

▷ Purpose: Allow students to connect with others
▷ Resources: HTML, CSS, JavaScript, Flask, SQLite3, AJAX
▷ Customer: Students on Campus (Freshman)
▷ Involved Uncertainty: Can we make this live?

4

Lessons Learned

▷ Working as a group using version control through GitHub
▷ How JavaScript can interact with a webserver
▷ Project requirements provide clear milestones to work towards
